

STRATEGY 2026-2029 OF THE STATE AUDIT OFFICE OF THE REPUBLIC OF LATVIA

Mission

We are the watchdog of public resources and make sure that they serve the common good.

Values

Accountability. Cooperation. Development.

Vision

Our audits have contributed significantly to the social welfare and the sustainable development of the country.

Strategic goal

The goal of the State Audit Office of Latvia is the efficient, diligent and legal operation of the public sector in the public interest.

Policy results and performance indicators

90 % of audits are conducted in areas which are high risk and which are topical for the public.

Assurance is provided that the national financial information provides a clear and accurate understanding of the country's financial situation.

100 % of completed performance and compliance audits provide recommendations with a financial or other form of impact.

Two-fold financial return for every euro invested in securing the operations of SAO Latvia.

More than 90 % of the state institutions surveyed consider that audits of SAO Latvia have contributed to the efficient, economical and effective use of public sector resources.

More than 80 % of the public surveyed consider that SAO Latvia as a whole is important for the successful functioning of the country.

Development of public sector auditing

Results to be achieved

- Public sector auditing has resulted in improved quality of services based on the needs of Latvia's population, and the fair and efficient use of public resources.
- Public sector auditing provides assurance on the accuracy of the annual financial statement and improves the sustainability, governance and reporting of public finances to the public through compliance assessments.
- An effective loss recovery process is ensured.
- The professional excellence of audits is strengthened by the developed quality management system.
- The State Audit Office of Latvia is a reliable and publicly understood independent supervisor and expert of state administration.

Development of the resources of the State Audit Office

Results to be achieved

- Purposeful and systematic development of human resources is provided.
- The system of motivation of employees of the State Audit Office (tangible and intangible) and the corporate culture safeguard the loyalty and attraction of employees.
- An effective and efficient organizational environment is ensured.
- The information and communication technology solutions available to employees provide added value in their daily work.
